**TIME WARNER CABLE’S REPLY TO THE RETURN OF  
ROCK HILL TELEPHONE COMPANY, D/B/A COMPORIUM COMMUNICATIONS  
TO TIME WARNER CABLE’S MOTION TO COMPEL OR,  
IN THE ALTERNATIVE, MOTION *IN LIMINE***

Pursuant to 26 S.C. Code Ann. Regs. 103-829 and other applicable rules of the South Carolina Public Service Commission, Time Warner Cable Information Services (South Carolina) LLC, d/b/a Time Warner Cable (“TWCIS”) files this Reply to Rock Hill Telephone Company, d/b/a Comporium Communications (“Rock Hill”) Return to Time Warner Cable’s Motion to Compel or in the Alternative, Motion *In Limine*. TWCIS seeks in its motion to compel to require Rock Hill to provide certain information sought in discovery which Rock Hill has refused to provide. Rule 103-833 of this Commission’s Rules of Practice and Procedure allow TWCIS to obtain through interrogatories and requests to produce “[a]ny material relevant to the subject matter involved in the pending proceeding...” The information requested by TWCIS is relevant and Rock Hill should be required to produce it.

**I. The Information Sought By Time Warner Cable Is Relevant.**

In this proceeding TWCIS seeks to extend its existing authority to operate as a telephone utility into areas of South Carolina where Rock Hill is the incumbent local exchange carrier. The application is governed by S.C. Code Section 58-9-280(B). One of the items which the

Commission can review under Section 58-9-280 is whether “provision of the service will not adversely impact the availability of affordable local exchange service.” Because of this provision, the effect of TWCIS’ proposed entry upon the incumbent local exchange carrier, Rock Hill Telephone, and, therefore, Rock Hill’s financial strength is entirely relevant to this proceeding. Accordingly, TWCIS is entitled to the discovery it seeks.

Section 58-9-280 has applied to every CLEC application filed and granted in South Carolina. It also applied to the previous applications TWCIS filed by which it obtained the authority under which it currently operates in South Carolina. In none of these previous proceedings has an issue been raised about whether the service proposed to be offered by the applicant will cause sufficient economic harm to the incumbent that the affordability of local exchange service will be affected. For this reason TWCIS approached Rock Hill with a request that Rock Hill clarify whether it would raise that issue in this proceeding. If Rock Hill would agree that it was not going to raise the issue, then the scope of discovery could be narrowed. However, Rock Hill has refused to respond to this request and state its position and instead has explicitly reserved the right to raise the issue of whether TWCIS’s entry into their service territory will adversely impact the availability of local exchange service. Accordingly, unless and until Rock Hill confirms that it will raise as an issue and argue that TWCIS’ entry into its territory will adversely affect Rock Hill and, as a result, the affordability of local service, Rock Hill must be required to produce the financial information requested in the TWCIS discovery requests.

## **II. The Annual Reports Produced By Rock Hill Are Insufficient.**

Rock Hill argues in its Return that the TWCIS motion should be denied because Rock Hill produced copies of its publicly available Annual Reports filed with ORS and this Commission. In the first place that argument ignores the scope of discovery – TWCIS is entitled

to receive information and documents relevant to the issues in the proceeding, not information which Rock Hill is willing to give. In addition, the Annual Reports are not a sufficient source of information about the finances of Rock Hill and the other incumbent local exchange carriers.

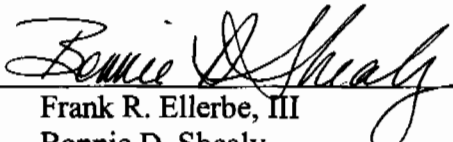

TWCIS has begun to review the Annual Reports of Rock Hill and the other five companies with which Rock Hill is coordinating its efforts. That review raises questions about the information shown in the Annual Reports and demonstrates why TWCIS needs more detailed and specific financial information.

- It appears that some of the six ILECs classify revenues differently from others. For example, for 2007 Comporium company PBT Telecom, Inc. reported “Total Revenues” of \$18,754,047 and reported no “Non-Operating Income”, while Comporium company Rock Hill Telephone Company reported “Total Revenues” of \$39,696,228 with an additional \$27,888,178 in “Non-Operating Income”.
- None of the Annual Reports of the six ILECs separately report revenues they receive from the federal or state universal service funds. While the six ILECs have produced that information in response to discovery requests, Time Warner Cable needs to know where and how those USF revenues are reflected in the Annual Reports.
- Farmers Telephone Cooperative reports \$103,695,603 in year-end retained earnings on Schedule 3 to its 2007 Annual Report. That Schedule also shows that Farmers started 2007 with \$125,668,581 in retained earnings. Changes during the year include: a “Miscellaneous” debit of \$48,304,342; a “Miscellaneous” credit of \$23,607,849; an “Other” credit of \$27,209,815; and an “Other” credit of \$76,485,788. Enormous sums of money are moving around on the Farmers balance sheet with absolutely no explanation in its Annual Reports.

These examples are given not to assert that the companies are failing to properly report their finances, but rather to show that the Annual Reports are insufficient sources of information for TWCIS to use to respond to Rock Hill's expected arguments regarding the effects of TWCIS' proposed entry into its territory. Accordingly, Rock Hill's argument that the Annual Reports are sufficient should be rejected and it should be ordered to produce the financial information requested by TWCIS.

Dated this 28<sup>th</sup> day of October, 2008.
